

Fig. 12. Location of some of the ancient, coral and algal reefs which are now reservoirs for petroleum in the northwestern part of Alberta, Canada. These reefs are of Middle Devonian classification. Redrawn from M. E. Hriskevich, "Middle Devonian reef production, Rainbow area, Alberta, Canada," American Association of Petroleum Geologists Bulletin, vol. 54, 1970, p. 2260-2281, Figures 5 and 7.
